

## **FUNDING TRANSLATIONAL RESEARCH**

**Tips for securing grant and venture capital funding to support commercialization of JHU technologies**

Join fellow researchers for an informational presentation by JHTV staff, followed by a casual networking reception. The session will provide Johns Hopkins researchers with an overview of basic concepts in university commercialization and sources (and tips!) for funding your project.

### **RECOMMENDED ATTENDEES**

Junior faculty, postdocs and graduate students who are solving scientific problems in the lab that can improve the world.

### **DISCUSSION TOPICS**

- Commercialization and its importance to JHU and beyond
- Identifying if an invention is worth “reporting”
- Securing intellectual property protection and licensing technology
- Funding sources (JHU translational grants, venture capital and corporate sponsorship)
- University-provided support
- How to get started and where to learn more

### **RECEPTION**

We encourage you to stay to meet the JHTV team and network with fellow inventors. Beer and snacks will be served.

### **QUESTIONS**
