

AI-X Foundry Fall 2023 Symposium

Charting a New Course: Navigating AI in Research Traditions

September 27, 2023

AI-X Foundry

Explore recent advances in AI and Data Science that are making a profound impact on human endeavors and are revolutionizing knowledge creation in disciplines ranging from science and medicine to social sciences and the arts.

Who should attend?

Researchers, scientists, academics, students, industry professionals, and anyone interested in the cutting-edge applications of AI in research and knowledge creation.

What you'll gain:

- Unique viewpoints and perspectives from four distinguished speakers
- Insights into the immense potential AI offers in accelerating research and innovation
- Understanding AI's influence across disciplines
- Knowledge of ethical considerations and challenges that arise with research practices
- Opportunities to engage and network with experts from diverse domains to uncover novel perspectives and approaches
