

Paul T. Englund

Emerging Scholars Seminar

Pravrutha Raman, Ph.D.

Fred Hutchinson Cancer Center

“Evolutionary innovations in eukaryotic histone repertoires drive biological novelties”

Tuesday, May 07, 2024, 12pm
Mountcastle Auditorium, PCTB 1st Floor

The Paul T. Englund Emerging Scholars Award recognizes individuals at the postdoctoral or assistant professor level with exceptional and demonstrated potential to forge tomorrow's scientific breakthroughs and to promote a creative, diverse, and inclusive future in biochemical research.

Sponsored by the Department of Biological Chemistry and the Institute for Basic Biomedical Sciences at the Johns Hopkins University School of Medicine.
