

In Vivo Cellular and Molecular Imaging Seminar Series

Jim Delikatny, PhD

Research Professor of Radiology, Member of Abramson Cancer Center, Institute for Translational Medicine & Therapeutics (ITMAT), Institute of Medicine & Engineering, Director of Optical Bioluminescence Sub-Core, Small Animal Imaging Facility, Translational Research, Center for Precision Surgery, Department of Radiology, The University of Pennsylvania

**“Translating Lipid Targeted NIR Probes for
Intraoperative Molecular Imaging of Lung Cancer”**

**Wednesday, December 11, 2024
3:30 p.m.**

Stoll Conference Room (SoM)

Pizza and light refreshments will be served.

For additional information please contact Mr. Jordan Durner:

JHU ICMIC Program, Dept. of Radiology
Phone: 410-502-7992 or **Fax:** 410-614-1948

This interdisciplinary, interdepartmental seminar series is focused on application of imaging to biological systems with a strong emphasis on cancer. We wish to foster an informal, relaxed environment to encourage a lively scientific discourse. This is dependent not only on the speakers but on the willingness of the audience to be involved. So please join us for the following presentation.
