APPLY BY MARCH 15 FOR FALL '25

THE MASTER OF SCIENCE IN ENGINEERING MANAGEMENT

Propel your future success with Johns Hopkins' MSEM program by gaining experience leading technical teams and using your engineering background to meet strategy challenges.

MSEM PROGRAM FEATURES

- In-demand technical tracks, including Innovation and Multidisciplinary Design, Sustainability Leadership, Space Systems Engineering, Nanobiotechnology, and more.
- International immersion experiences in Denmark, London, Portugal, Spain, and New York.
- A management track featuring consulting, design, and innovation projects with industry partners.
- Individual mentorship with faculty.
- Network building through a cohort-based management track, alumni engagements, and on-campus industry events.

UPCOMING INFO SESSION:

MSEM - Virtual, Tuesday, 2/11 at 4:30 p.m. ET
