

# When Abuse Goes Digital: Guidance for Healthcare Professionals

**Tuesday**  
**April 15, 2025**  
**12:00PM-1:15PM**  
**SON N213**

This focused session explores the dual importance of digital safety for healthcare professionals - both for personal wellbeing and professional practice. We'll examine how technology-facilitated abuse intersects with public health and patient care, while providing practical strategies for maintaining digital boundaries in professional settings. This session was created with School of Nursing, School of Medicine, and School of Public Health students in mind.
