AI in Daily Life
Johns Hopkins Data Science and AI Institute Fall 2025 Symposium

Tuesday, Sept. 16
Johns Hopkins Homewood campus

Symposium | 1 to 4:15 p.m. | Shriver Hall Auditorium
Poster Session | 4:15 to 6 p.m. | Great Hall and Glass Pavilion

Join the Johns Hopkins Data Science and AI Institute this fall as we explore how artificial intelligence is reshaping everyday life. From sustainable computing to embodied AI and the future of work, discover how humans and AI can thrive together.

Speakers Include:

LESLIE KAELBLING

Panasonic Professor of Computer Science and Engineering, MIT

BENJAMIN LEE

Professor in the Department of Electrical and Systems Engineering and the Department of Computer and Information Science, University of Pennsylvania

JOHN TASIOULAS

Professor of Ethics and Legal Philosophy and Director of the Institute for Ethics in AI, University of Oxford
