

# *Equal Access in Science & Medicine*

*"Living with a Disability During  
the COVID-19 Pandemic"*

*Student Panel*

**13 & 14 April 2021**

11:30 am to 12:30 pm

## **EQUAL ACCESS STUDENT PANEL**

Our panel is part of the "JH Needs U" initiative's COVID-19 Wellbeing projects to support safety measures on-campus.

Our student panel aims to garner support for students with disabilities and promote their well-being through adherence to university COVID-19 guidelines.

**Moderator: Dr. Bonnielin Swenor, MPH, PhD**  
DIRECTOR OF DISABILITY HEALTH RESEARCH CENTER

We would like to invite all administrators, faculty, staff, and trainees to attend these panel discussions.

Students with disabilities have been disproportionately affected by the COVID-19 pandemic. Data from a GSA survey suggested that 25% of students in SOM identify as having a disability, mental health disorder, or chronic illness. Therefore, a large proportion of trainees are likely experiencing new challenges due to the pandemic.

"...We are the vanguards of resilience. My hope is that COVID-19 will bring more understanding, inclusion, and opportunity to the disability community."-Dr. Bonnielin Swenor
