JOHNS HOPKINS  
UNIVERSITY

Disability Health  
Research Center

**Phillip J. Roundtree, MSW, MS**  
SCHOLAR-ACTIVIST & MOTIVATIONAL SPEAKER

### "Resilience Through Coping: A Journey Of Hope"

The Equal Access in Science and Medicine seminar committee, Johns Hopkins Biomedical Scholars Association, and SNMA MAPS at JHU are pleased to welcome Phillip J. Roundtree to present our May lecture. Phillip is a scholar-activist who focuses on promoting wellness awareness in marginalized and underrepresented communities. He was recognized as a 2018 Black Enterprise magazine "Be Modern Man" honoree and is known for his Tedx Talk, "Black Mental Health Matters." His transparency about his own journey with depression and anxiety gives a face, voice, and hope to those who have yet to recognize their own strength.
