

GLOBAL HEALTH VENTURES:

Advancing Innovations from Idea to Impact

Thousands of innovations have been invented at JHU but have yet to reach their full potential.

Are you interested in learning how to take one from idea to impact?

Learn from guest speakers about global health innovation and tips for starting your own venture.

You will work with a graduate student team from across JHU to:

- *Review intellectual property developed by the JHU community*
- *Identify a solution with commercial promise*
- *Understand what it takes to develop your own impactful venture*
