

2020

Annual Symposium

MiNDS

Mathematical Institute for Data Science

idies

The Institute for Data Intensive Engineering and Science

Join us
Friday, October 23rd
for a data science symposium
hosted by IDIES and MINDS!

*This years event is being held via Zoom Webinars,
and requires each participant to register.*

This event aims to bring together experts in the theoretical foundations and development and application of data intensive technologies and analysis to share discoveries, practical ideas, and insights.

IDIES and MINDS seek to promote interdisciplinary collaborations and invite researchers from across JHU, the government, industry, and local organizations that have an interest in data science and how to apply it in their own projects or future projects to attend the symposium.

To learn more about IDIES and MINDS, and the resources they offer, please be sure to visit their websites.

visit either site to register for this event:

IDIES.JHU.edu MINDS.JHU.edu

The symposium will include:

- ▷ Keynote Speaker **Dr. Lauren Gardner**, Associate Professor of Civil Engineering, and Center for Systems Science and Engineering (CSSE) Co-Director
- ▷ Guest speakers highlighting exciting data science break throughs and applications
- ▷ IDIES Seed Award Updates & MINDS awards ceremony
- ▷ Break out sessions
- ▷ Student Poster Session
