

The Department of Biological Chemistry

Seminar Series

Theme: Intersections in Metabolism

Michael Hiller, Ph.D.

Professor of Comparative Genomics,
LOEWE Centre for Translational Biodiversity Genomics,
Senckenberg Society for Nature Research & Goethe University

“The genomic underpinnings of metabolic
and physiological adaptations to specialized diets”

Tuesday, March 29, 2022 | 12pm

Host: Dr. Timothy Osborne

Zoom link: <https://jhjhm.zoom.us/j/94022021451>

Meeting ID: 940 2202 1451

Coming Soon:

Yixian Zheng, Ph.D. – 4/05/22

Irene Newton, Ph.D. – 4/12/22

Michi Taga, Ph.D. – 4/26/22
