

Speaker Series: The Impact of Policing on Public Health

Event 1:

Using Data to Stop Police Violence

April 28, 12-1PM

Speaker: [Samuel Sinyangwe](#), Human Rights Data Analysis Group

Registration: https://jh.zoom.us/webinar/register/WN_EALoiCMERbCOKYhk4JBFBg

Speaker Information:

Samuel Sinyangwe is a data scientist and policy analyst who built [Mapping Police Violence](#) and the Police Scorecard, and co-founded [Campaign Zero](#), to advance data-driven solutions to end police violence in America. Previously, Sam worked at PolicyLink, where he worked to connect 61 federally-funded communities to research-based strategies to build cradle-to-career systems of support for low-income families. He has also helped city leaders, youth activists and community organizations develop citywide agendas to achieve quality education, health, and justice for young black men. He graduated from Stanford University in 2012, where he studied how race and racism impact the U.S. political system.

Sponsored by [Johns Hopkins Data Science Lab](#) and the IDARE Committee in the Department of Biostatistics at Johns Hopkins Bloomberg School of Public Health.
